

Haiti Missions Experience 2012

Purpose – The purpose of this trip is to expose people from North America to a cross-cultural experience, helping them to discover the life changing work of God as they serve him.

Objectives – Though we are still working out the details of exactly what project we would be doing, it is certain our efforts would be primarily directed to the medical clinic lead by Dr. Manno in the village of Limbe. Our work will be a combination of physical labor and personal interaction. Although things are never quite as we plan them, we are planning to work on the dorm rooms next to the clinic and in-patient building.
